STATINTL

STATINTL

[redacted] and I agreed with [redacted] a proposed article for the Support Bulletin on the above subject, which would take into account Colonel White's memorandum of 13 September. The new article would be a rewrite of the article of August 1 and would include also a warning that all concerned should be aware that when an employee reports for duty PCS Washington, his medical entitlements thereby terminate. Colonel White's memorandum, concurred in by this Office, may be regarded as a legal opinion.
